

Keith's Corner/McGill News

July 5,2019

The new cell tower took on a new look last week. I haven't found out for sure if it is an AT&T or Verizon unit or both. It was made to look like a water tank.

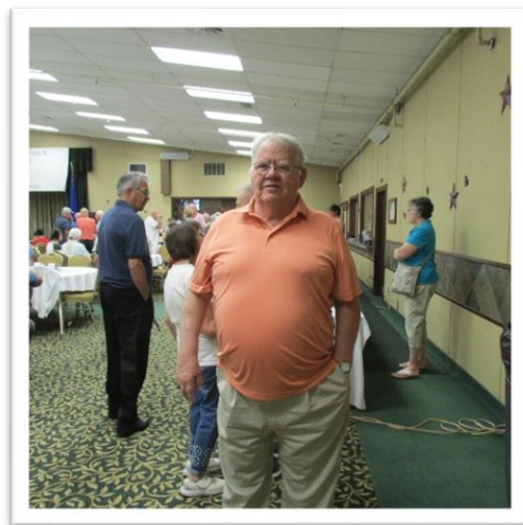

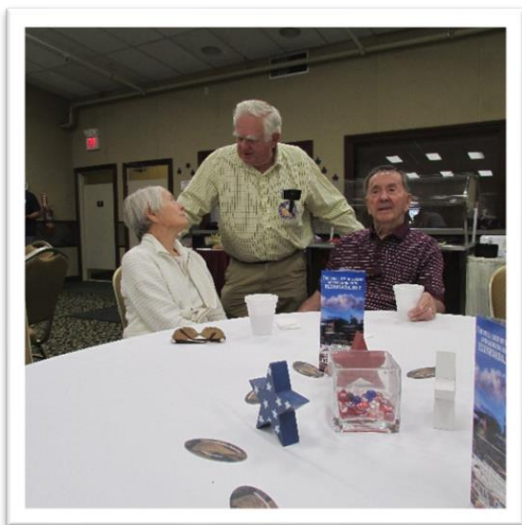

Keith's Corner

Where does the time go? Seems like it goes down a rat hole somewhere and gets it faster each year. The brunch at the Convention Center was packed this year. The food was great and they had a great tasting waffle along with lots of fruit and muffins. Here are a few photos.

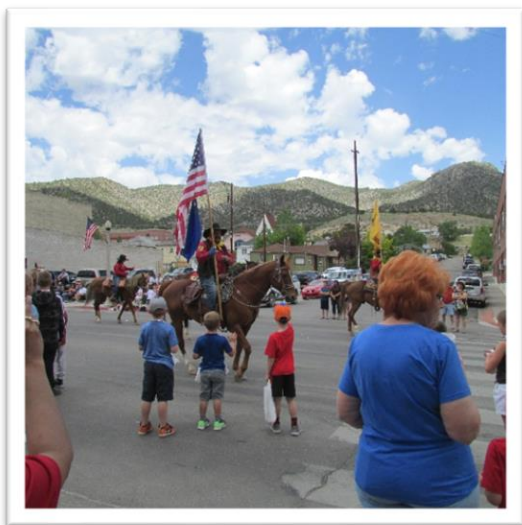

I don't know the names of all the folks, so I will let you readers spot the ones you know. It was a large crowd.

Above is the Volunteer Fireman on the left and the Charter School Band on the right. This was the one and only band.

There were some horse and riders. The old stagecoach I remember used to be in the parades and driven by I think old man Rice and the Stoddards. The truck is an old Mack from I think 1915 era. That has got to be the horniest Elk I have ever seen!!!

The breakfast this year had some great waffles. I hope this becomes a standard. Hats off to the organizers.

Next year as I understand it will be an all class re-union. I still want to get an all McGill Grade School class re-union going for next year. It could be just a simple picnic lunch at the McGill pool park. Nothing fancy, just a gathering to discuss old times. It would be a great opportunity to have folks look thru their pictures and find some photos of McGill and the school. I would encourage people to write up

a short history of family connections to McGill and hopefully start a research file for the McGill Library that we need to build up. This would be a great start. I would also like to get some folks interested in getting names and photos of teachers as far back as possible. It would be nice to have it for the school library. All in all the 4th is a wonderful time to gather and enjoy what we have in this great country. So have a happy 4th and a safe one.
